

# Software al galoppo

**Ti piacciono le corse dei cavalli? Se non riesci a fare a meno di scommettere anche quando i botteghini dell'ippodromo sono chiusi, puoi rimediare col tuo ZX. Qualche amico, e il tuo soggiorno...**

**V**oi simulare una corsa di cavalli con lo stesso brivido di quelle che si vedono negli ippodromi e magari improvvisarti abili allibratore facendo scommettere gli amici? È sufficiente digitare questo programma sul tuo ZX. **AL RUN**, lo ZX vi chiede se desiderate che i cavalli in gara siano 3 oppure 5; potete fare la vostra scelta battendo il numero desiderato seguito da **NEW LINE**. A questo punto viene visualizzata il percorso e appaiono sul video anche i cavalli che sono rappresentati da numeri che cominciano ad avanzare da sinistra verso destra; voi non dovete fare assolutamente nulla, potete solo fissare lo schermo per vedere quale sarà il cavallo che per primo arriverà al traguardo e la cui vittoria verrà segnalata dal vostro ZX nella parte inferiore del video.

Il programma richiede più di 1K di memoria e gira sullo ZX81; potete cercare di "ridurre" il programma togliendo le righe relative alla grafica e diminuendo il numero dei cavalli in gara.
